DATES OF PREPARATION OF THIS CONFIRMATION: May 9, 2007

SUBJECT: Phone Calls with Mr. Aguiar

COMMENTS:

May 2, 2007: I called Mr. Aguiar, and I left a message on his phone.

May 3: Mr. Aguiar called and stated that he had sold 49% of his business. With that sale, he will have money to complete his reclamation obligations. He stated that he should have the funds on that day or the next. He would start on Saturday, May 5, or Monday, May 7, and he would let me know.

May 9: I called and left a message. Mr. Aguiar returned my call and left a message. Signing the business transaction had taken longer than anticipated. Signing is anticipated today. If so, money would be transferred tomorrow or on Friday, May 11. He would let me know. When the money is transferred, he would begin the reclamation.

I called and left a message that the message clarified the status. Keeping BLM informed of changes is important, and we understand that he is still planning to complete the reclamation. As long as he is trying to make a good faith effort, then BLM is willing to extend the time. I asked that he call me if the plans change.
